FRESHMEN AND SOPHOMORES ARRIVED AT GOULD TUESDAY

Freshmen and sophomore students as well as candidates for the football and soccer teams arrived at Gould Academy on Tuesday to initiate activities for the school's 1974-75 academic year. Regular classes begin on Sept. 9.

David Van Ness, Director of the Gould Outdoor Program, said a voluntary freshman orientation program will be based at the Wild River Campground in Evans Notch. From that point, two separate overnight expeditions to nearby shelters will be completed by students. Participating sophomores will be supervised on four-day treks in the Carter, Baldpate and Mahoosic ranges.

"Gould's orientation camps are not so much instructional as they are an introduction to the country which surrounds the academy. Students and faculty meet one another on an informal basis and a sense of community begins to establish itself," Van Ness said.

Twenty-two foreign students will be members of the academy's student body this fall, according to Samuel Bigelow, Director of Admissions. Young men and women from Canada, Haiti, Venezuela, Thailand, Hong Kong, Chile, Norway, Mexico, Germany and France will spend from one term to a full school year at Gould. A select number of American students also attend European schools to complete the foreign exchange program.

Headmaster Richard J. Dolven announced the appointment of new faculty members joining the staff.

Carol Fiske joins her husband, Frank, in the music and drama department. She has assisted him unofficially as director, technical director and choreographer in some of the productions of the past two years. Mrs. Fiske is a graduate of Skidmore College and has also done graduate study at the Boston University School of Applied Arts.

James Grew will teach French, Spanish and German. He is a graduate of Yale University.

Linda Calderon will join the academy art department. She is a graduate of Skidmore College and will supervise Gehring Hall.

Vinceta Herrero Marti will teach Spanish as an exchange teacher from Spain. She is a graduate of the University of Barcelona.

Sara Jolovich comes from Uruguay to join the faculty as a Spanish teacher. She is a graduate of the Alianza Cultural Uruguaya and the Superior Official Institute of Uruguay.

Catherine Newell, wife of Athletic Director Charles Newell, returns to the faculty after a one year absence. She will teach Art History. Mrs. Newell attended Vassar College and was graduated from the University of Maine.

William Pooley, a graduate of Austin College, will teach and lecture in photography. He is the husband

OCT. 15 IS DEADLINE FOR ELDERLY TAX & RENT REFUND

Emily Saunders, District 63 candidate, has been advised by the State Democratic Committee that the deadline for application for refunds under the Elderly Householders Tax and Rent Refund Act is Oct. 15.

According to Mrs. Saunders, low income, elderly householders (62 years or older) may be entitled to refunds on real estate taxes or rent paid, refunds not to exceed \$400.00. The amount of refunds will be based on how much the tax exceeds 21% of income; or how much 25% of rent exceeds 21% of income.

She stated that refunds are not in any sense rebates of taxes or rents, but are direct payment by the State. Town Clerks do have supplies of application forms, however.

The Senior Citizens will meet Tuesday, Sept. 10, at the Moses Mason House with dinner being served by the ladies of the Historical Society. The meeting will begin at 11:00 a. m. of English teacher Bonnie Pooley. He has completed graduate work at the State University of New York is the author of professional photography with Byron Shurtliff at the University of Delaware. Mr. Pooley is the author of professional photographic articles and has done several one-man shows in New York and Delaware.

COMMENTS FROM THE TOWN MANAGER'S OFFICE

Resident hunting and fishing licenses will be available at the City Service Station.

We would like to again remind Food Stamp recipients that they watch the dates on their authorization paper as they expire toward the end of the month. Also that we are not supposed to issue any stamps the last two working days of the month.

The total value of Food Stamps sold last month was \$8,320. Recipients paid \$3,774 as their share. We have several from other towns who purchase stamps in our office as some of the towns do not disburse them at all or they have only certain times people can obtain them.

As announced last week after Sept. 1 automobile excise tax on motor vehicles became 1/2 price. We had told several it would be Nov. 1, as this was what we had received for information.

MOSES MASON HOUSE HAD 500 VISITORS SINCE OPENING

Around 500 visitors, excluding invited guests and members of the Bethel Historical Society, have toured the Moses Mason House since its opening on July 2. At each of the eleven "Open" periods each week, two lady volunteers from the community have been on duty as guides and have been doing an excellent job in relating various historical facts connected with the furniture, tools, bric-a-brac and other items on display. Visitors have shown considerable interest in the old documents, photographs, reports and other memorabilia exhibited in museum cases in the Meeting Room, and almost without exception have spent some time in the garden admiring and attempting to identify the different varieties of old fashioned flowers. It is hoped that the townspeople of Bethel will make a point of visiting the Moses Mason House in this its first year of operation. The hours are 10:30-12:00 and 2-4 Tuesday through Saturday and 2-4 on Sunday.

THE BETHEL HISTORICAL SOCIETY WILL HOLD ITS ANNUAL MEETING TONIGHT, SEPTEMBER 5, AT WHICH TIME OFFICERS WILL BE ELECTED FOR THE COMING YEAR.

GREENWOOD CITY

Mrs. Collette Morgan, Corres. — This is September, the beginning of another great season of the year. The valley is blanketed in a soft white fog, but the fog rises and the hills stand crystal clear. The air seems lighter. We suddenly notice that along the road the sumach candles are red; the meadows are yellow with goldenrod, while here and there are the New England asters. The drowsy season has ended. One afternoon, "Nymph" and I went fishing. I followed the path through the tall flowing grass to where "Nymph" was tied. An ash extended its branches as a shelter at the shore.

A few turtle heads grew near by. Their appearance is such that their common name seems fairly appropriate.

Bees go by me as I stand there for a moment before leaving shore. They are for the most part bound for my plants beyond the yard. Day after day I find them hidden from sight in my jewel weeds and hollyhocks. So thick and tall are the "jewels" along the path to the basement door that I wonder each time that I pass through if I'll make it safely. They rise by the dozens to fly around me.

As I left, a ruddy kingfisher drew himself, as you draw a stroke with a pencil, over the surface of the water, and away to the left into the trees.

At this time the pond is abundant with pickered weeds, arrow heads, and lilies.

Near the mouth of the Sanborn, on the same log, in the same place where I always see him, sat the mud turtle. Today he seemed less nervous for I came near enough to reach him before he swung his left foot across his face as if wiping his nose, then dropped beneath the water.

Here, too, I saw the cedar waxwing, my first this year. Who can describe the grace and elegance of this bird, dressed in a robe of so delicate and silky a texture? Their manner of flight is quite their own. They often wheel, as if at command, and plunge swiftly downward, alighting on the top of a leafless tree. In our leafless elm by the house, now removed, we used to see them often as they came to take string for nest building. I have a few close pictures of them with beak full of string.

I caught a couple of fish here then continued on toward the shady shore.

Little floating hearts, water-lily-like leaves and an umbel of small white flowers were among the weeds and white water lilies.

Moving along to the shoreline the water was smooth and reflected

the clouds overhead. Here the close growing trees brooded above in an encompassing silence broken only by the strike of a fish.

I had all afternoon so went entirely around the pond. I missed the red-wings among the cattails at the lower end of the pond. But the dragonflies were plentiful. On their wings as they hovered for a moment before darting away there was a prismatic gleam, the wing texture is so delicate.

It was a pleasant, peaceful afternoon.

"Summer is turning the corner and flitting her colorful skirts—So now is it memory of springtime or dread of the winter that hurts?"

Summer is turning the corner as gay gypsy autumn appears. She smiles a farewell as she passes... I wonder why I am in tears!" Ina Ladd Brown

Saturday afternoon as August closed its doors the yachts sailed off shore at Bikini Beach. The Greenwood City Yacht Club met for its third get together. It was a farewell to our campers and friends as they go their various ways during school months and winter days.

The weather favored us and the food was wonderful; but why not with Chef John and genial Vern to make everyone welcome. For the forty who came there was something for everyone: music, dancing, swimming, water skiing, volleyball or just sitting.

To those who did so much in preparation and have gone for the winter the "stayers" say "Thank you and may you have a happy season 'til spring sings again in a soft green voice."

For us who stay the asters will lie in the September lanes, October will share its flaming beauty, November will then stalk like a ghoul, flailing right and left, leaving tress discarded of their finery to stand against a barren sky.

As winter in her ermine cape settles down for a long visit and I walk or snowshoe by Bikini Beach there will be no yachts off shore. Instead winter's pageant will hold display. If she is roused she is full of fury but when she smiles she is beautiful.

The Hayes family spent the week end on a fishing trip in Lyford.

The Best Way To Save Energy
Is By Calling Your Oil Dealer.

Unbelievable or not, the fact is, we can do a great deal to save energy, and in the process save you money.

FACT: oil heat directly fired saves 3 times the oil it takes to generate the same heat by electricity or any other indirect energy source.

FACT: most oil burners could use a quick inexpensive tune up that could save you 20% or more each year. Like all appliances, your oil furnace needs a little maintenance to run more efficiently. It will run cleaner too.

FACT: Our company wants to do all we can to save you money. Give us a call, we will be glad to show you how to use less of a good thing.
